

Home, Building & Hotel Automation Solutions

SOLUTION FOR HOME BUILDINGS

RELIABLE TECHNOLOGY

What can we do for you?

- Control of all home automation functions from a single system based on KNX standard: reliable, robust and proved in billions of installations.
- Coordinate professionals for climate, lighting, shutters, sunshades, air quality, multimedia, access control and the communication with them, including video intercom.
- Safeguard your home and warn you in case of any risk, such as fire, flood, smoke, gas or intrusion.
- Use your own smartphone or tablet as a remote controller inside and outside your home, free of charge.

How is it aesthetically?

- Smart, without switches or other additional remote controllers in walls. A single device with all the control.
- Touch panels and switches with capacitive technology and designed by you.
- One design for all the rooms and functions.
- Compatible with standard mechanisms, such as sockets, push buttons, network, USB, telephone or TV connections.

Why is it reliable?

- We design, together with the final owner and/or technicians the control system for the project, integrating all the necessary elements according to their needs.
- We help the installer in charge of the project execution.
- We certify the right installation of the system.
- We keep the documentation of the project for the owner.
- We are responsible for guarantees, enlargements and maintenances, exempting the developer once the installation is certified.

DOMOTIC SOLUTION APPLIED TO HOME BUILDINGS

Local and remote control of the home building.

- ❑ Local control through capacitive touch panels and customizable switches with ambient luminosity and proximity sensors, all multifunction devices.
- ❑ User can create scenes, macros, timers and schedulers.
- ❑ Motion and presence detection for function activation.
- ❑ Interaction with the home building from outdoors through certificated apps for mobile devices, including alarms reception.
- ❑ Voice control of the home building, integrated with Alexa®, Siri® or Google®.

Lighting.

- ❑ Lighting control: incandescent lamps, fluorescent tubes, halogen lamps, LED, RGB, RGBW, DALI, 1-10VDC. ON/OFF, dimming and scenes.
- ❑ Indoor lighting management according to natural light input.
- ❑ Outdoor lighting control in gardens, swimming pools and other common or private areas.

Enclosures.

- ❑ Motorized enclosures control: shutters, sunshades, venetian blind, blinds with slats, doors, windows and garages. Up/down, positioning and scenes.
- ❑ Weather station with wind, rain, solar radiation and external temperature sensors for advanced management of facades in terms of security, cleaning and lowering the energy consumption.

Climate and air quality.

- ❑ Integral climate control: radiators, radiant floor or ceiling for heating and/or cooling, air to water heat pump systems, geothermal systems, solar water heating and water heating tank.
- ❑ Forced ventilation control.
- ❑ Measurement of air quality: CO2, VOCs.

Multimedia.

- ❑ Audio/video systems integration through IR, serial port or IP.

Technical alarms.

- ❑ Technical alarms detection: smoke, gas, fire, flood and intrusion. Automatic outage and warning to user.

Energy management.

- ❑ Integration of smart electrical appliances.
- ❑ Power disconnection of electrical appliances, watering system and sockets near rest areas to reduce electromagnetic noise.
- ❑ Energy consumption measurement and management: electric, water, gas and others, to activate-deactivate circuits according to user policies.
- ❑ Home building management with nearly zero consumption.

Video intercom.

- ❑ Integration of the video intercom system and home automation in the same touch panel, for single home buildings or for any type of residential building.
- ❑ Remote door opening with electric strike.
- ❑ Access control in private and public areas.

Security.

- ❑ Integration with video cameras.
- ❑ Integration with intrusion alarm, connected with the alarm monitoring company.
- ❑ Panic room control.

PRODUCTS

Z35

Capacitive touch panel with a backlit 3.5" display, proximity sensor, internal temperature probe and thermostat for two independent areas.

It is able to contain up to 42 controls/indicators, distributed in up to 7 pages with a navigation menu. A screensaver with date, time and/or temperature is set when the touch panel is not in use and the menu is shown automatically when the user approaches thanks to the proximity sensor.

Its brightness is regulated by the ambient luminosity sensor included. In addition, it incorporates 4 analog-digital inputs that may be configured as binary inputs for sensors and potential-free push buttons, as temperature probe inputs or as motion sensor inputs.

Accessories: temperature probe and motion sensor.

Available cover options:

Anthracite

ZVI-Z35-A
(86 x 86 x 10 mm)

Z35 installed in **Hotel & Spa La Residencia Puerto Tarifa** (Cádiz) - Spain.
www.hotelspalaresidenciapuerto.com-tarifa.com

The hotel has rooms with the latest technology for the guest to get a superior experience: lighting regulation, air conditioning management, execution of personalized scenes, indication of privacy status in room, and so on.

Z41 Lite

Z41 Lite is a capacitive touch panel which represents an advance in digital home control.

Minimalist aesthetics, dominated by simple forms, lead to a timeless design that facilitates integration within working and living environments. Its 4.1" color display in portrait (3:4) makes your management and enjoyment easier. Up to 96 controls to enable distributed communication within the intelligent home.

Z41 Lite includes an internal clock with battery, USB port for program updates and 2 analog/digital inputs for great functionality.

Accessories: temperature probe and motion sensor.

Z41 Remote

Z41 Remote is an app for the visualization and control from mobile devices (smartphones y tablets). You will be able to interact with your installation in a quick, easy and safe way anywhere, anytime! You only need a Z41 Pro connected to the Internet.

Automatic real-time notifications and alerts in your mobile device.

Complete management and remote controlling of air conditioning, heating, lighting and other systems.

Scenes activation (enter, exit, relax, work...).

Z41 Remote

Z41 COM

Z41 COM is a capacitive touch panel with additional communication features, including video intercom based in Zennio GetFace IP System.

Complying with minimalist aesthetics and with the control capabilities of Z41 family (up to 96 functions available), Z41 COM allows a complete communication in smart homes, thanks to the integration with the video intercom Zennio GetFace IP, including microphone and loudspeakers. Remote control from smartphones and tablets through the free mobile app Z41 Remote.

It includes USB port for configuration download and Ethernet port. Plug&play system without additional configurations. Installation in portrait or landscape is possible. It does not include inputs. No compatible with other video intercom systems different from Zennio GetFace IP.

Customizable capacitive touch panels

Flat · Flat 55 · Square TMD · TMD

Capacitive touch panels of the TMD and Flat series are fully customizable to fulfil the design requirements of any automation project needing touch panels with a custom aesthetic, either by branding or aesthetic coherence with the environment.

TMD Design is a web application from which it is possible to customize these series touch panels in an aesthetic and functional way. You can select a color or add an image as a background, modify the color and shape of the tactile areas and LED indicators or add graphic elements in an intuitive way. A complete set of icons is available along with the ability of adding text to complete your design.

Endless combinations for creating your unique design to be printed in high strength tempered glass.

Flat Display - Customizable

Backlit capacitive touch panel in Flat family, with proximity sensor, flat design (9 mm) and total customization.

Everyone can create unique compositions, including images, icons, texts or logos, which are printed on a high strength tempered glass. Room control is simple with the 5 buttons available and up to 8 indicators can be shown on its 2.4" display. The backlit icons for buttons regulate their brightness with the included ambient luminosity sensor and attenuate when the user is not detected by the proximity sensor.

Flat Display includes an internal temperature probe and thermostat, as well as 2 analog-digital inputs that may be configured for potential-free sensors and push buttons, temperature probes or motion sensors.

Accessories: temperature probe and motion sensor.

Available cover options:

ZVI-FD
(81 x 81 x 9 mm)

Flat 1/2/4/6 - Customizable

Backlit capacitive touch switches in Flat family, with proximity sensor, flat design (9 mm) and total customization.

Everyone can create unique compositions, including images, icons, texts or logos, which are printed on a high strength tempered glass. There are models with 1, 2, 4 or 6 configurable buttons and backlit icons, which regulate their brightness with the included ambient luminosity sensor and attenuate when the user is not detected by the proximity sensor.

Flat 1/2/4/6 incorporates an internal temperature probe and thermostat, as well as 2 analog-digital inputs that may be configured for potential-free sensors and push buttons, temperature probes or motion sensors.
